

# CORRUGATOR CORRUGATE SHREDDER LINE

AMOS Mfg., Inc.'s CorruGator line of corrugate shredders are specifically engineered to process corrugated materials of all sizes. The Corrugator reduces waste volume and produces tighter, more compact bales for efficient waste management.

- Assembled Boxes
- Cores 3" to 20"
- Flattened Boxes
- Folding Carton Stock

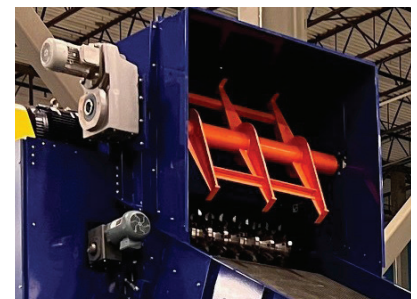

## FEATURES & BENEFITS

- Denser bales
- Conveyor feed
- Minimal dust generation
- Box crusher arm to flatten folded boxes
- Mounts directly above baler saving floor space
- PLC-Controlled with auto reverse and high level shut-down
- Material can be easily discharged to baler or compactor
- Volume reduction
- Quiet operation

## CORRUGATOR MODELS\*\*

Model	COR-3130	COR-3140	COR-3150	COR-3175	COR-31100
Throat Width	48-60	48-60	48-60	48-60	48-60
Horsepower	15-30	20-40	30-50	60-75	75-100
Approx Weight	5500	6000	7000	7500	8500
Core Size	3-8"	4-10"	4-14"	12-20"	12-24"

\*\*Models range from 1-10 ton per hour depending on density and type of corrugated being processed.

## COMMON APPLICATIONS:

- Automotive Suppliers
- Core Shredding
- Distribution Centers
- Folding Carton Facilities
- Manufacturing Companies
- Recycling Facilities
